

10/12/2025

Dear Parent/Guardian,

Wangaratta High School is looking forward to another great year of teaching and learning and would like to advise you of our Voluntary Financial Contributions Schedule for 2026.

Government schools provide students with free education to fulfill the standard curriculum requirements and we want to assure you that all parent contributions to Wangaratta High School are voluntary.

Our School Council is proud of the excellent quality of the facilities and resources available for our students to enjoy, and few schools match the numerous programs we offer which cater for our students' needs and interests. These facilities, resources and programs have been enhanced and expanded as a direct result of parental voluntary financial contributions. This support has led to considerable improvements being carried out, especially in the areas of computer technology, numeracy and literacy support, and through the provision of outstanding resources.

Wangaratta High School staff and students want to thank parents both past and present for their support of the Voluntary Financial Contributions Scheme for the huge difference it makes to our school and the programs we can offer. Many of the resources and programs we have now are a direct result of the contributions made by parents of the past.

Department of Education guidelines now mandate that schools are no longer able to provide parents with a statement of fees for voluntary contributions. With this in mind we have provided an outline of the types of curriculum activities, materials and resources that will be enhanced through voluntary contributions and a recommended voluntary financial contributions schedule of costs for 2026. We invite parents to review this document and consider contributing to the fund to continue to support and enhance the education of children at Wangaratta High School.

For further information on the Department's Parent Payments Policy please see the overview attached to this letter.

Yours sincerely,

Dave Armstrong
Executive Principal

Helen Collins
School Council President

Curriculum Contributions

Items and activities that students use, or participate in, to access the Curriculum, include:

- Computer applications where our students have their own individual password – at Wangaratta High School we use COMPASS.
- Everyday items that your child will use in the classroom to learn the essential curriculum such as art supplies, science experiment equipment, cooking ingredients, technology materials.

Other Contributions

Non-Curriculum items and activities to support the daily operation and objectives of Wangaratta High School. These contributions contribute towards student wellbeing programs, the purchase of first aid equipment and support the upkeep and improvements of our school grounds.

Tax Deductible Contributions

Tax deductible contributions made per family towards Wangaratta High School.

- Building fund (to support renovations, upgrades, and maintenance of school infrastructure).

Extra-Curricular (OPTIONAL) Items and Activities

Wangaratta High School offers a range of items and activities that enhance and broaden the schooling/educational experience of students and are above and beyond what it could provide if relying solely on Government and Departmental allocations. These are provided on a user-pays basis. Details of these items and activities will be provided to students and families throughout the year.

Educational items for students to own

For some educational items (e.g. devices, stationery, text books), it makes sense for parents to purchase them from a third-party provider, so students can take personal ownership for use at school and/or at home. The school considers the necessity of these items, the cost and preferred suppliers.

Items can be purchased through Lilydale Books on the following link:

<https://www.lilydalebooks.com.au/BookList>

Laptop computers are an important part of our schools **Bring Your Own Device (BYOD)** program. The school supports a range of devices, and you can purchase or obtain from any supplier of your choice. The School has partnered with Learning With Technology (LWT), who have put together a portal that allows parents to purchase devices that meet all our minimum requirements and is our recommended supplier. Parents can access further information and purchase devices by visiting the following link
